	FROM	1 Chief, CIA/PID (NPIC)	
		: Zaporozhye Aircruft Engine Plant #478, USSR	
	SUBJECT		
	REFERENCE	Requirement No. RR/360/62 Project No. C 1255/62	
			-
	1. This concerning the	memorandum is forwarded in answer to the referenced requirement e Zaporozhye Aircraft Engine Plant #478.	
	2. This	memorandum was conducted by utilizing photography from Photography from this mission was used	
	as a base and	updated by using photography from	
	the plant cont	limits of the plant are outlined in Figure 1. shows shows staining an estimated floorspace of 1,399,225 square feet. Photo- [(Inset 1) shows the following new construction: (a) [Inset 1) shows the following new construction: (a) [Inset 1] shows the following new construction: (b) [Inset 1] shows the following new construction: (b)	-
•	feet of floors the building s is a probable and #2 (Inset new construct: All buildings	space; (b) annotation #2 is an addition to a machine shop giving a new floorspace estimate of 90,525 square feet; (c) annotation #3 machine shop (42,250 square feet). In the case of annotation #1; buildings (outlined in black) were removed to accompant the cion. The new total estimated floorspace is 1,649,300 square feet. Within the enclosed area were included in the estimate; however, or buildings were annotated. Access to the plant is by road only.	•
•	feet of floors the building a is a probable and #2 (Inset new construct: All buildings only the major A rail spur en	a new floorspace estimate of 90,525 square feet; (c) annotation #1 machine shop (42,250 square feet). In the case of annotation #1 1), buildings (outlined in black) were removed to accompant the ion. The new total estimated floorspace is 1,649,300 square feet. In within the enclosed area were included in the estimate; however, or buildings were annotated. Access to the plant is by road only. In the plant area; however, it appears inactive.	
•	feet of floors the building a is a probable and #2 (Inset new construct: All buildings only the major A rail spur estable to the contacted on the buildings contacted on the contacted on the buildings of the major and the major and the buildings only the major and the buildings of the buildings	a new floorspace estimate of 90,525 square feet; (c) annotation #1; machine shop (42,250 square feet). In the case of annotation #1; 1), buildings (outlined in black) were removed to accomodate the cion. The new total estimated floorspace is 1,649,300 square feet. In within the enclosed area were included in the estimate; however, or buildings were annotated. Access to the plant is by road only. In the plant area; however, it appears inactive.
